(Order forms available in the NSP Online Store and at www.nsp.org.)

QUESTIONS ABOUT PRODUCTS AND ORDERS

If you need additional information about specific products, sizing, or the status of your order, please email your inquiry to orders@nsp.org or call us at 303-988-1111, Monday through Friday, 8:30 a.m. to 4:30 p.m. (MST). You can also submit an order message through your account on the online store.

SHIPPING IN THE U.S.

UPS is still the main shipping provider of the NSP, however certain products in the

catalog, when ordered alone, will give the option to ship via USPS. Continuing this season, the NSP is providing discounted shipping rates based on the total value of the items in your cart. Orders of \$299 or more ship for a flat ground rate of \$5, and orders ranging from \$199 - \$299 ship for a flat ground rate of \$10. This offer is only valid in the contiguous 48 states; Alaska and Hawaii are not eligible for this promotion. Members in Alaska have USPS flat rate options for their orders as well as UPS options. Visit the Shipping & Returns page of the NSP Online Store for additional information.

EXCHANGES AND RETURNS

You may return your purchase to us for an exchange or refund if (1) we receive the merchandise within 60 days of receipt, and (2) the merchandise is unused and in the condition in which it was received. You must obtain a return authorization before sending back any merchandise for return or exchange consideration. To obtain a return authorization, simply submit a return request through your account on the NSP online store. Once approved, follow the instructions on the return form that was sent with your order. If you have

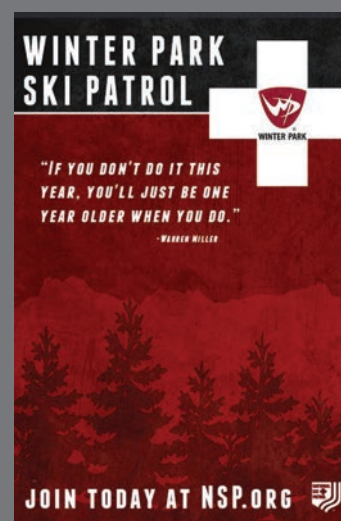

questions or need help, contact the NSP sales and partnerships team at orders@nsp.org, reference the Shipping & Returns page in the online catalog, or call 303-988-1111 for assistance. ALL sale and clearance items are considered FINAL SALES and are not eligible for returns or exchanges unless a manufacture defect is discovered. If you do not obtain a return authorization and your return falls outside the scope of the NSP return policy, we will request that you pay for the shipping to send the items back to you or we will hold onto your items until they are deemed abandoned.

WEBSITE-ONLY PRODUCTS IMAGE ONLINE

Be sure to check the NSP online catalog for products not displayed in this catalog, as well as special, web-only offerings. Some products in this catalog have more than one color available, although only one color is shown. The online catalog has all images and products available through NSP. Find great deals on close-out items from past seasons, and look for new products to be added during the season. Take advantage of this quick, secure method of placing orders

LOOK FOR THE NEW "RECRUITMENT" SECTION OF THE NSP ONLINE STORE.

You can purchase customized posters and other materials – including some targeted to EMTs and to members of the military -- and access recruiting tools, plans and case studies free of charge. When purchasing customized posters, please make sure you have access to a current logo, and allow up to 5 business days for customization.

patagonia®

**3L HARD SHELL PATROL JACKET**

Patagonia's most durable hard shell for days that start with predawn explosives and end with alpenglow sweeps. This three-layer jacket is made with rugged, 100 percent nylon GORE-TEX® fabric to provide durable waterproof/breathable and windproof performance. Pit zips vent heat, and a lightweight stretch-woven powder skirt seals out cold and snow. The helmet-compatible, two-way-adjustable fixed hood with laminated visor provides optimal visibility in bad conditions. Cord locks at the hood and hem allow for easy adjustment. Pockets include two hand-warmer pockets, two chest pockets with bellowed construction, and one forearm pocket. The internal pockets include two interior drop-in pockets and one interior zippered stash pocket. Official product demonstration video and sizing chart are available in the NSP Online Store. **Regular fit.**

A #0245 | Unisex XXS-XXL – French Red/Black | **\$385** MSRP \$599

**2L HARD SHELL PATROL JACKET**

Like a good partner during avy patrol, this two-layer GORE-TEX® hard shell hangs tough in all conditions. It is made with two-layer nylon GORE-TEX® fabric for durable waterproof/breathable and windproof performance, and has a mesh lining to wick moisture. The center front Vislon® zipper is easy to use, and the watertight coated zippers with Slim Zip installation reduce bulk and weight. The lightweight powder skirt seals out spindrift, while pit zips vent excess heat. The helmet-compatible hood easily adjusts with exposed, easy-to-find cord locks. Pockets include two hand-warmer pockets, two chest pockets with bellowed construction, and one forearm pocket. The internal pockets include two interior drop-in pockets and one interior zippered stash pocket. Official product demonstration video and sizing chart are available in the NSP Online Store. **Regular fit.**

B #0244 | Unisex XXS-XXL – French Red/Black | **\$290** MSRP \$449

**WOMEN'S TRIOLET PATROL JACKET**

Not perfect, but a step in the right direction for the 2019-2020 season, the women's Triolet jacket is available with back and shoulder crosses. All crosses are seam sealed so that performance is not sacrificed for fit! The three-layer GORE-TEX® fabric features a waterproof/breathable membrane bonded between a robust inner lining and a durable polyester outer shell that's now 100 percent recycled and a DWR (durable water repellent) finish further fends off wet weather. The helmet-compatible, two-way-adjustable hood with a laminated visor blends protection with optimal visibility; traditional cord locks in the hood and hem allow for quick adjustment; an interior stretch mesh catch-all pocket stashes spare gloves, and the two Napoleon chest pockets and two hand-warmer pockets stay clear of a harness and pack lines. Other detailing includes low-bulk, watertight, coated zippers on the pit zips and external pockets, low-profile cuff closures, full-reach gusseted underarm panels for mobility, and an elasticized pant attachment strap at the inside lower back to eliminate gaps on powder days. **Regular fit.**

C #0251 | Women's XS-XL – Black w/ crosses | **\$260** MSRP \$399

**PATROL VEST — NEW COLOR**

Built with tough, two-layer 210 denier nylon fabric with a DWR (durable water repellent) finish to stand up to the rigors of patrol work, the updated Patrol Vest has a longer length and a host of pockets with refined angles for easy access and maximum utility. It has a mesh lining to wick moisture and can be layered over or under the 2L and 3L Hard Shell Patrol Jackets. Zippered pockets include one chest pocket, four front pockets, one oversized pocket on the back with two ways to access it, and one interior stash pocket. Velcro®-secured pockets include one chest and one interior drop-in. A radio can be secured in the radio holster on the left chest with a clip included to attach your speaker/microphone. New for the 2019-2020 season, the Patagonia Patrol Vest is available in all black. Please note that the black version does NOT come with crosses on the front or back. Official product demonstration video and sizing chart are available in the NSP Online Store. **Regular fit.**

D #0246 | Unisex XXS-XXL – French Red/Black | **\$145** MSRP \$229

E #0249 | Unisex XXS-XXL – Black w/out crosses | **\$145** MSRP \$229

patagonia®

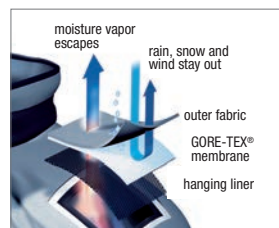

A

B

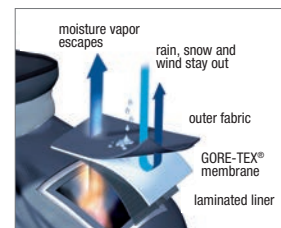

GORE-TEX® Product Technology 2-Layer vs. 3-Layer Fabric What's the Difference?

2-LAYER FABRIC Designed for a wide range of outdoor activities

2-layer construction features a GORE-TEX® membrane bonded to the outer shell material and protected on the inside by a separate lining, which heightens wearing comfort and versatility.

3-LAYER FABRIC The optimum solution for extended and extreme conditions

3-layer construction features a GORE-TEX® membrane bonded between the tough outer shell and a robust inner lining. The benefit: lightweight, more compressible, no movement between the layers for less wear and tear and greater durability.

MOUNTAIN UTILITY PANT

Thanks to 10 years of dedicated testing from a hard-working team of patrollers and mountain guides, Patagonia built the Mountain Utility Pants, the burliest mountain work pants available. Made to resist the wear and tear of mountain professionals, they have a tough H2No® Performance Standard shell made from robust 100 percent nylon oxford weave fabric for a stubborn resistance to abrasion and complete waterproof, windproof, and breathable performance. A DWR (durable water repellent) finish keeps the outer fabric from becoming saturated and increases durability. Reinforced with a crotch gusset for even more abrasion resistance, the Mountain Utility Pants feature articulated knees for unlimited motion and a brushed-tricot lining that wicks moisture and glides smoothly over layers so you can move freely. Leg details include thigh vents to quickly release heat, fully featured gaiters to seal out snow, tough scuff guards that protect the inside of the leg and the bottom hem, and watertight, coated zippers with slim zip installation to reduce bulk and weight. The waist features adjustable elastic tabs to personalize the fit (especially after a burger at lunch), a two-snap closure, and a zip fly. Other details include a removable RECCO® avalanche rescue reflector and four zippered pockets — two hand-warmers, one thigh pocket, and one rear pocket. **Regular fit.**

A #0250 | Unisex XXS-XXL – Black | \$225 MSRP \$349

WOMEN'S POWDER BOWL PANTS — SHORT INSEAM AVAILABLE

The women's-specific Powder Bowl Pants were brought into the line to better accommodate the fit needs of NSP's female patrollers. For season-long comfort, the Powder Bowl Pants are built with tough, two-layer GORE-TEX® fabric for durable waterproof/breathable and windproof protection and have an articulated fit for freedom of movement. The Powder Bowl Pants come with a built-in RECCO® reflector that will need to be removed for use while patrolling. The RECCO® unit is not removable in this style; a very small cut in the interior of the garment will allow it to be removed without sacrificing the performance of the pants. The short version of offers a 30-inch inseam, while the regular version comes with a 32-inch inseam. Official product demonstration video and sizing chart are available in the NSP Online Store. **Regular fit.**

NSP PATROL PACKS

NSP 16L AND 21L PATROL PACKS

NSP has teamed with Atlas 46 to create fantastic remakes of the popular packs sold by NSP during past seasons. The 16L and 21L Patrol Packs are designed to make your supplies readily available at the moment you need them. The rear-opening compartment has multiple see-through sections and straps that allow you to easily organize and stow your gear; two of these large compartments are fully removable. The design of the rear compartment allows it to lie completely flat, which gives you access to your gear even faster. The 16L and 21L Patrol Packs also have a front-access pocket to store additional gear such as avalanche safety equipment. A fleece-lined goggle pocket on top, along with small pockets on the waist belt, ensures ALL of your gear can fit. These packs are hydration compatible and feature insulated hydration tube tunnels so your water does not freeze. Load-lifter straps along with the padded foam back make these packs not only extremely functional, but comfortable to wear. The cross on this pack IS removable, so the pack can be worn while free skiing. Skis can be carried vertically and diagonally. Volume: 16 liters and 21 liters. **Removable cross.**

IMAGE ONLINE #19344 | NSP 16L Patrol Pack | **\$139**

C #18941 | NSP 21L Patrol Pack | **\$149**

DESCENSIONIST PACK — 32L

Patagonia's mid-sized 32L Descensionist Pack has a lightweight, fully featured design that meets all the needs of backcountry riders out for the day in varied terrain. Durable CORDURA® nylon fabric makes the Descensionist extremely light and supple, but still provides burly puncture and abrasion resistance. The Descensionist has an asymmetrical spindrift collar that opens wide for easy packing and closes with the tug of a drawcord that simultaneously cinches the collar and closes the lid instantly for a secure seal against blowing snow. A handy side-access zipper provides an alternative entry to the main compartment and lets you access your gear quickly, and a zippered top pocket on the lid makes sure your small essentials stay handy. Your shovel and avalanche tools have their own zip-closing pocket that features internal elastic cording to keep everything organized and allow instant retrieval. The suspension system includes a padded hipbelt with a stretch-woven stash pocket and a removable high-density foam back panel for structure and support with heavy loads. Compression straps make it easy to pack a snowboard or a pair of skis, and two sets of daisy chains provide multiple lashing options.

D #19601S | Descensionist — 32L — S/M — Ink Black with cross | **\$115** MSRP \$169

D #19601L | Descensionist — 32L — L/XL — Ink Black with cross | **\$115** MSRP \$169

SNOWDRIFTER PACK — 30L

Sized for long days on patrol, the burly SnowDrifter has a design that compliments the unique demands of moving through the mountains in winter under your own power. It has a dedicated compartment for snow safety tools with individual sleeves and pockets for your probe, shovel, snow saw, and more. The large main compartment opens two ways: via a fast U-shaped zippered lid or a zip-open back panel to provide instant access to all your gear without unloading the pack. A separate microfleece-lined pocket keeps your goggles handy and protected from sharp edges. Front and side compression straps with locking cam buckles provide numerous carry options for your skis and boards. The top-mounted haul handle is reinforced and sized for gloves. A 3.5-inch reflective white cross is embroidered on the front pocket of the pack. S/M: 22 inches by 11 inches by 8 inches (HxWxD); L/XL: 24 inches by 11.5 inches by 8 inches (HxWxD).

E #19389S | SnowDrifter — 30L — S/M — Black with cross | **\$119** MSRP \$169

patagonia®

CAPILENE® AIR CREW AND BOTTOMS — NEW

Capilene® Air is the most advanced base layer Patagonia's ever made. It has the greatest range of warmth and comfort of any of their base layers, insulates even when wet, dries quickly, and resists odors for day after day use. Made from an airy blend of 51 percent merino wool from New Zealand and 49 percent Capilene® recycled polyester, Capilene® Air feels light and soft on the skin and stretches naturally to move with the body in motion. Patagonia created the soft 18.5-micron-guage-yarns used in Capilene® Air with an innovative air-blasting technology that dramatically increases the yarn's loft while reducing weight compared to traditional wool yarn. The seamless 3-D construction eliminates chafe points throughout the entire garment and nearly eliminates wasted material. Soft, stretchy, elastic knit in the cuffs and hem keep the garment positioned where you want it and add skin-pampering comfort for extended use. It has a gender-specific box-stitch texture to trap warmth and allow airflow. **Slim fit.**

LONG-SLEEVED CAPILENE® COOL LIGHTWEIGHT SHIRT – NEW!

Designed for movement and high exertion, Capilene® Cool Lightweight is the lightest, fastest-drying, best wicking technical fabric for hot days. It moves moisture quickly and breathes exceptionally well to keep you cool and dry across the full range of active, high-output agendas. Made of 100% recycled polyester double knit, Capilene Cool Lightweight has a smooth outer face that glides easily in any layering system.

E #B115 | M's S-XXL – Fire | **\$32** MSRP \$45

F #B116 | W's XS-XL – Smolder Blue | **\$32** MSRP \$45

CAPILENE® MIDWEIGHT ZIP-NECK AND BOTTOMS

Patagonia's Capilene® Midweight fabric hits the sweet spot of weight, breathability, and wicking that, worn alone or with additional layers, is the essence of versatility. It keeps you dry and comfortable when worn during high-exertion activities in cool-to-moderate temperatures and insulates beneath a shell in cold weather. Constructed with a Polartec® Power Grid™ fabric, it has a smooth face for easy layering and a brushed-back grid that aids in wicking and warmth. The fabric has 93 percent recycled-polyester content and is treated with Polygiene® permanent odor control. The crews feature a rib-knit collar with internal neck tape for chafe-free comfort, full underarm gussets for unhindered shoulder mobility, elastic thumb loops for secure hand coverage, flatlock seams to minimize chafing, offset shoulder and side seams to lie smoothly beneath pack straps, and a drop tail for additional coverage. The zip-necks include a long center-front zipper for easy venting. The men's bottoms feature a brushed elastic waistband for next-to-skin softness, a gusseted crotch for mobility, a functional fly, and flatlock seams to minimize chafing, while the women's bottoms feature a flat waistband with brushed inner elastic for next-to-skin softness, a gusseted crotch for mobility, and flatlock seams to minimize chafing. **Slim fit.**

CAPILENE® THERMAL WEIGHT ZIP-NECK/BOTTOMS/BOOT CUT BOTTOMS

The microgrid fleece interior of Patagonia's Capilene® Thermal Weight provides the greatest warmth combined with the greatest breathability of any base layer in its lineup. Soft, stretchy, and compressible, the Polartec® Power Grid™ fabric has a smooth face that glides beneath layers and a brushed fleece interior to warm your core, wick moisture, and feel smooth against your skin. Capilene Thermal Weight is bluesign® approved, has 30-92 percent recycled content, and is treated with Polygiene® permanent odor control. The zip-necks feature a long, center-front zipper for venting, full underarm gussets for unhindered shoulder mobility, elastic thumb loops for secure hand coverage, flatlock seams to minimize chafing, offset shoulder and side seams to lie smoothly beneath pack straps, and a drop tail for additional coverage. The men's bottoms feature a brushed elastic waistband for next-to-skin softness, a gusseted crotch for mobility, a functional fly, and flatlock seams to minimize chafing, with the boot-cut style featuring a 22-inch inseam for comfort with boots. The women's bottoms feature a flat waistband with brushed inner elastic for next-to-skin softness, a gusseted crotch for mobility, and flatlock seams to minimize chafing, with the boot-cut style featuring a 22-inch inseam for comfort with boots. **Slim fit.**

DESCENDER HYBRID LONG SLEEVE HALF ZIP – NEW STYLE!

A highly technical midlayer top ideal for cold-weather training, climbing or skiing, the Descender Hybrid Jacket is a hybrid-construction midlayer that uses strategically-zoned insulation for warmth and protection where you need it most. In the front panels and shoulders, we used our MerinoLOFT™ insulation, which provides a warm, breathable and natural alternative to synthetic insulations, with an ultralight Pertex® Quantum Air face fabric. In the back and arms the Descender Hybrid features a super-soft and quick-drying terry corespun fabric—nylon fibers wrapped in merino wool and blended with LYCRA® to offer added durability and strength while maintaining stretch and next-to-skin softness.

F 19765 | M's S-XXL – Surf/Midnight Navy | **\$150** MSRP \$265

G 19772 | W's XS-XL – Midnight Navy/Mystic | **\$150** MSRP \$265

HYPERTECH BAMBOO HOODY – NEW!

Super soft HYPERTech™ Bamboo hoody. It's Bamboo Mesh back panel provided added breathability. Great for working out or heading to town after a day on the slopes. Navy and Red with the NSP SHIELD.

H 19883 | M's S-XXL – Two-Tone Mesh Back Hoody – Navy/Red | **\$113** CUSTOM

HEATR WINDSTOPPER HOODY/BALACLAVA – NEW!

Easily block out the cold with WSI SPORTS warmest hood. Perfect for any professional or casual winter sports activity. Soft, brushed ProWikMax® lining covers top of head and front of face. Fits easily under a helmet. Designed to block wind in sub-zero windchill and extremely cold weather

I 19884 | Unisex – One Size – Balaclava/Hoody – Black **\$42** MSRP \$59

MEN'S HEATR® SUMMIT 1/2 ZIP

The HEATR® Summit shirt utilizes a Hypertech™ Bamboo mesh face material, HEATR® fabric in the entire core of the shirt, and brushed ProWikMax® in the arms for added comfort. The Hypertech™ Bamboo material is lightweight, breathable, wicks moisture, and has natural antimicrobial properties. Features include a half-zip for extra heat dumping and an invisible chest pocket to stash the essentials. Crosses are printed on both shoulders, and the NSP shield logo is proudly printed on the left wrist.

J 19722 | M's S-XXL – Charcoal Mesh/Black with shoulder crosses | **\$85** MSRP \$159

WOMEN'S HEATR® ½ ZIP – NEW!

WSI's warmest base layer shirt. HEATR® fabric is located throughout the entire lining of the shirt. Features a 1/2 Zip, sleeve pocket, and thumb holes. Comes with the cross on the sleeve and the NSP logo by the cuff.

K 19882 | W's S-XL – Black Heather with Shoulder Crosses and NSP Shield **\$77** | MSRP \$159

MEN'S HEATR® BOOT-CUT BOTTOMS

Lightweight warmth is provided by targeting key locations for the HEATR® material where it is needed most: the hamstrings, quads, and glutes. Brushed ProWikMax® face material provides added warmth, stretch, and comfort. Boot-cut length eliminates excess material in your boots.

L 19513 | M's S-XL – Black | **\$78** MSRP \$109

MICROTECH™ 1/4 ZIP

Perfect for early and late-season days on patrol when you do not need a lot of warmth under your patrol vest, but just as functional for bike patrols, concert first aid, obstacle course patrol, and any other activity that requires you to stand out from the crowd. White crosses are printed on both shoulders for use under your vest, and the NSP shield logo is printed on the left wrist. Designed to be worn while patrolling or for off-season activities, this quarter-zip is also a perfect lightweight workout shirt with its antimicrobial, anti-snap, and superior moisture-wicking properties. The men's and women's version both come in red with black sleeves.

R2® TECHFACE JACKET — NEW

The versatile double-weave fabric in Patagonia's new R2® TechFace Jacket combines a weather-shedding, durable face with a warm, breathable, high-loft interior. Its stretchy and cozy all-mountain performance further extends into a dialed feature set. The zippered hand-warmer pockets sit high, above harness-and pack-line, and their backsides form a pair of interior drop-in mesh pockets. The sleek, stretch-knit Variable Conditions Cuffs resist snags and push up easily, a partial-hem binding seals in warmth, and a zippered left-chest pocket holds small essentials. It has a DWR (durable water repellent) finish, and a rubberized NSP shield logo is embroidered on the right chest. **Slim fit.**

A #M394 | M's S-XXL — Black | **\$105** MSRP \$169

B #M395 | W's XS-XL — Black | **\$105** MSRP \$169

ADZE JACKET

On windswept ridges, forested trails, and in wintry conditions, Patagonia's Adze Jacket lets you move without hesitation. Its two-layer, stretch-woven polyester/spandex shell stops wind and sheds snow, and the bonded fleece grid interior wicks moisture and adds light insulation. Zippers secure the two hand-warmer pockets, underarm gussets reduce lift on big reaches, and hook-and-loop closures seal the cuffs. An adjustable drawcord hem further keeps the weather at bay, and a DWR (durable water repellent) finish helps you stay dry. **Regular fit.**

C #M388 | M's S-XXL — Black | **\$95** MSRP \$149

D #M389 | W's XS-XL — Black | **\$95** MSRP \$149

NANO-AIR® JACKET

Through high-output, stop-and-go alpine missions, the Nano-Air Jacket's exclusive fabric package integrates the qualities of fleece, soft shell, and puffy by combining a plain-weave liner, warm-when-wet FullRange™ insulation, and a lightweight-yet-durable weather-shedding shell with DWR (durable water repellent) finish. The jacket's incredibly soft, supple feel and full mechanical stretch allow for a close, athletic fit over base layers and an uninhibited range of motion.

On breaks from patrolling or in frigid conditions, pull on a lightweight shell and the Nano-Air Jacket's thermal properties skyrocket. A rubberized NSP shield logo is embroidered on the right chest. **Slim fit.**

E #M390 | M's S-XXL — Black | **\$155** MSRP \$249

F #M391 | W's XS-XL — Black | **\$155** MSRP \$249

NANO-AIR® LIGHT HYBRID JACKET

Its official name is the Nano-Air® Light Hybrid Jacket, but around here, we call it the "Mid-layer Mullet" — protection up front, breathability in the back. Created to put an end to the clam factor that often accompanies hefty aerobic effort in chilly temperatures, the Nano-Air® Light Hybrid Jacket will keep you at optimal operating temperature, even on bad hair days. A light layer of warm, stretchy, and breathable FullRange® insulation (40-gram) is wrapped in a lightweight, yet durable, 100 percent nylon ripstop shell with DWR (durable water repellent) finish for just the right amount of wind- and weather protection up front. A rubberized NSP shield logo is embroidered on the right chest. **Slim fit.**

G #M392 | M's S-XXL — Black | **\$125** MSRP \$199

H #M393 | W's XS-XL — Black | **\$125** MSRP \$199

BETTER SWEATER SHIRT JACKET — NEW!

A road trip essential, the Better Sweater® Shirt Jacket doubles as a soft jacket or a warm shirt. Made from 10-oz 100% recycled polyester fleece dyed with a low-impact process to significantly reduce the use of dyestuffs, energy and water compared to conventional dyeing methods, it features a sweater-knit exterior and a soft fleece interior. **Slim fit.**

I #S125 | M's S-XXL — New Navy | **\$92** MSRP \$159

MICRO PUFF® JACKET — NEW

It's like down, only better! Patagonia's Micro Puff® Jacket uses a revolutionary, feather-soft synthetic insulation with an unprecedented warmth-to-weight ratio. The groundbreaking PlumaFill insulation (65 gram 100 percent polyester)

patagonia®

is phenomenally light and compressible, offering down-level warmth that still traps your heat when it's wet. A nylon ripstop Pertex Quantum® shell with a DWR (durable waterproof repellent) finish blocks wind and snow. The garment's design maximizes performance and minimizes useless fluff. It features zippered hand-warmer pockets (the left pocket doubles as a stuff sack with a reinforced carabiner clip-in loop), a pair of sleek internal drop-in pockets (made without excess, using the backside of the hand-warmer pocket bags), and elasticized cuffs and hem. A rubberized NSP shield logo is embroidered on the right chest.

Regular fit.

J #M396 | M's S-XXL – Black | \$160 MSRP \$249

K #M399 | W's XS-XL – Black | \$160 MSRP \$249

MICRO PUFF HOODY – NEW!

The Micro Puff® Hoody delivers the best warmth-to-weight ratio of any jacket ever created. The unprecedented combination of warmth, minimal weight and compressibility—even when wet—offers the versatility of synthetic without compromising the benefits and feel of down. The revolutionary PlumaFill insulation (65-g 100% polyester) is featherlight and compressible, offering down-level warmth that still traps your heat when it's wet. A nylon ripstop Pertex Quantum® shell, with a DWR (durable waterproof repellent) finish, blocks wind and snow. **Regular fit.**

L #M400 | M's S-XXL – Fire | \$190 MSRP \$299

M #M401 | W's XS-XL – Feather Grey | \$190 MSRP \$299

DOWN SWEATER

The Down Sweater's featherweight, superbly compressible warmth is designed with you in mind. The 100 percent polyester ripstop shell on this down jacket does more than look sharp; it is tear-resistant, snow-shedding, and windproof. Details include 800-fill-power 100 percent Traceable Down (European goose down that can be traced back to birds that were never force-fed, never live-plucked) that

is stabilized with quilted-through construction, a contoured fit, a drawcord hem that tightens from inside the zippered hand-warmer pockets, and an interior chest pocket that doubles as a zippered stuff sack with a carabiner clip-in loop. Nylon-bound elastic cuffs seal in heat, and a DWR (durable water repellent) finish sheds moisture. A rubberized NSP shield logo is embroidered on the right chest.

Regular fit.

N #M267 | M's S-XXL – Black | \$140 MSRP \$229

O #M277 | W's XS-XL – Black | \$140 MSRP \$229

NANO PUFF® JACKET

Take Patagonia's classic Nano Puff® Pullover, add a full-length zipper for greater all-around ease and, presto, you have the versatile Nano Puff Jacket. The wind-blocking, 100 percent recycled polyester shell sheds moisture and glides effortlessly in your layering system. Low-bulk, hydrophobic, highly compressible PrimaLoft® Gold insulation (60 grams) traps heat with remarkable efficiency, even when wet. The jacket has a sculpted fit, with narrow, horizontal quilting on the shaped side panels, and the soft, wicking interior storm flap and zipper garage add chin comfort. Its internal zippered chest pocket doubles as a self-stuff sack with a carabiner clip-in loop. It also has two zippered hand-warmer pockets, elasticized cuffs, and a dual-adjust drawcord hem to seal out wind and seal in warmth. A rubberized NSP shield logo is embroidered on the right chest. **Regular fit.**

P #M278 | M's S-XXL – Black | \$125 MSRP \$199

Q #M279 | W's XS-XL – Black | \$125 MSRP \$199

patagonia®

ISTHMUS QUILTED SHIRT JACKET – NEW!

Built with tough, weather-resistant materials for conditions that flutter throughout the day like leaves in the wind. Designed to go from jacket to shirt and back again, the Isthmus has a limber 100% recycled nylon shell with a DWR (durable water repellent) finish to shed moisture and increase durability. The lightweight 60-g (100-g in sleeves) Thermogreen® polyester (92% recycled) insulation wraps you in warmth, feels soft and continues to insulate even if wet.

A #S123 | M's S-XXL – Sisu Brown | **\$98** MSRP \$169

BIVY HOODED VEST – NEW!

Not all bivies are in the dirt, but when they are, we wouldn't want a better sleeping companion. Wind- and water- (and of course dirt) resistant, it's made of sturdy, pliable nylon canvas (51% recycled) with a DWR (durable water repellent) finish. Insulated with 100% Recycled Down reclaimed from used down products, the vest has wide baffle construction and plush inside trim for extra warmth.

B #S130 | W's XS-XL – Sisu Brown | **\$115** MSRP \$179

ORGANIC COTTON QUILT SNAP-T PULLOVER – NEW COLORS!

For everyday warmth on the road or close to home, nothing beats the all-out comfort of the Cotton Quilt Snap-T® Pullover. It's made with a soft, organic cotton/polyester jacquard knit fabric with lofty fill yarns of textured polyester for breathable, cozy warmth. The 1-inch diamond quilting creates an effective heat-trapping surface and reduces bulk while increasing compressibility. The arms are cut generously with Y-Joint sleeves to allow unlimited shoulder mobility. The doubled stand-up collar has a snapped placket to block breezy weather. Wide rib-knit cuffs and hem seal in warmth and retain shape. It has a climbing cord hanging loop and inside contrast collar tape that is brushed for softness. A rubberized NSP shield logo is stitched on the right chest. **Regular fit.**

C #S126 | M's S-XXL – Navy Blue | **\$86** MSRP \$149

DIAMOND QUILTED BOMBER HOODY – NEW!

The weather might go all to hell, yet inside this warm, weather-resistant jacket there's nowhere you'd rather be. It has a supple 100% recycled polyester ripstop shell for wind protection and a DWR (durable water repellent) finish to resist moisture. Inside the sleeves, body and hood, a lightweight yet warm layer of 80-g Thermogreen® polyester insulation (90% recycled) traps heat with remarkable efficiency even when wet.

D #S128 | M's S-XXL – Hex Grey | **\$98** MSRP \$169

LONG-SLEEVED FJORD FLANNEL (MEN'S AND WOMEN'S) — NEW COLORS

Thick, beefy, and ultra-comfy, the heavyweight Long-Sleeved Fjord Flannel Shirt is made for days that are colder than a well digger's rump. Made of soft, long-staple, 6.5-ounce 100 percent organic cotton flannel, it provides durable, indispensable warmth, whether worn on its own or as an overshirt. It has two single-button chest patch pockets and two-button adjustable cuffs. Straight hem. **Relaxed fit.**

E #S124 | M's S-XXL – Defender: Feather Grey | **\$52** MSRP \$89

F #S127 | M's S-XXL – Castroville: Oyster White | **\$52** MSRP \$89

G #S129 | W's XS-XL – Upriver: Wooly Blue | **\$52** MSRP \$89

WOMEN'S BETTER SWEATER 1/4 ZIP

The Better Sweater® 1/4-Zip pullover jacket has a sweater-knit face that slides easily under a shell and a soft, fleecy interior that can be layered or worn next to the skin. Patagonia is always striving to reduce the environmental footprint, so the fleece is dyed with a low-impact process that significantly reduces the use of dyestuffs, energy, and water compared to conventional dyeing methods. Supple micropolyester jersey fabric trims the wind flap, cuffs, and hem. It has a stand-up collar and quarter-length zipper (with garage), zippered left-sleeve pocket, and princess seams on the back. Fair Trade Certified™ sewn. A rubberized NSP shield logo is stitched on the right chest. **Regular fit.**

H #S120 | W's XS-XL – Birch White w/ NSP shield | **\$60** MSRP \$99

SKI+ COMPRESSION OTC SOCKS – NEW!

With a precise anatomical design and blended merino construction with the added benefits of compression, the Ski+ Compression Ultralight Over-the-Calf socks are the ultimate ski socks. Our Ski+ Compression sock construction features graduated compression that helps increase circulation and support for better skiing performance and faster recovery.

I #19757 | M's S-XL Ultralight Cushion – Jet Heather | \$29 MSRP \$45

icebreaker®

Bridgedale®

RETRO FIT

Do you have issues with your heel moving around inside your boots? If so, the new Retro Fit's thicker merino blend was designed with you in mind. Slightly thicker than the Ski Midweight, the Retro fit is constructed from 33.5 percent merino wool, 33.5 percent polypropylene, 32 percent nylon, and 1 percent elastane. Unisex sizing makes this perfect for all patrollers looking for increased padding and warmth in their ski socks.

M #19429 | Unisex S-XL – Black/Steel | \$14 MSRP \$22.95

SKI LIGHTWEIGHT

The Ski Lightweight is a performance lightweight ski sock with micro cushion foot and shin pads. Engineered with an advanced zonal padding system that provides extra support and comfort to areas of the foot and leg, the Ski Lightweight has a close supportive fit from foot to calf. Knit with merino wool for superb softness next to skin while providing excellent thermal and moisture control properties. According to rigid testing, Tactel® fiber is at least twice as soft and 20 percent lighter than most other fibers. It also dries eight times faster than cotton. Constructed from 20 percent merino wool, 51 percent nylon/polyamide, 20 percent Endurofil™/polypropylene, 7 percent Tactel®, and 2 percent Lycra®/elastane.

N #19606 | M's M-XL – Dark Denim/Blue | \$15 MSRP \$24.95

O #19605 | W's S-L – Blackberry | \$15 MSRP \$24.95

SKI MIDWEIGHT

The Ski Midweight is a performance midweight ski sock with a fully cushioned shin, foot, and toe area. Engineered with an advanced zonal padding system that provides extra support and comfort to areas of the foot and leg, this style also has a close, supportive fit from foot to calf. Knit with merino wool for superb softness next to skin while providing excellent thermal and moisture control properties. Made with Endurofil™ that is combined with Enduro wool and merino wool for

superb wicking and durability. Endurofil™ is polypropylene fibers that offer high abrasion and wash resistance. Constructed from 25 percent merino wool, 48 percent nylon, 25 percent Endurofil™, and 2 percent Lycra®.

P #18895 | M's M-XL – Black/Silver | \$16 MSRP \$25.95

Q #18896 | W's S-L – Black/Pink | \$16 MSRP \$25.95

EASY ON

The Easy On is a lightweight sock with friction-free slide zones for easy boot entry and features a close, supportive fit from foot to calf. Friction-free slide zones on the heel and the top of the ankle make it easier to slide into your boots. Knit with merino wool for superb softness next to skin while providing excellent thermal and moisture control properties. Fusion technology provides balanced insulation and moisture management, giving you the best fitting, most comfortable, and durable ski socks, allowing you to enjoy your winter sports whatever the weather. Constructed from 19 percent merino wool, 60 percent nylon, 19 percent Endurofil™, and 2 percent Lycra®.

R #19062 | M's M-XL – Gunmetal/Orange | \$15 MSRP \$24.95

S #19063 | W's S-L – Black/Light Grey | \$15 MSRP \$24.95

MIDWEIGHT +

The Midweight + features full top to bottom cushioning for maximum warmth and pressure distribution. Engineered with an advanced zonal padding system that provides extra support and comfort to areas of the foot and leg, the Midweight + has a close, supportive fit from foot to calf. Knit with merino wool for superb softness next to skin while providing excellent thermal and moisture control properties. Constructed from 34 percent merino wool, 32 percent nylon, 33 percent Endurofil™, and 1 percent Lycra®.

T #19064 | W's S-L – Purple/Black | \$16 MSRP \$25.95

SKI COMPRESSION PLUS

This gradual compression ski sock is particularly customized for skiing because it comes equipped with a smooth, long-lasting, cushioned shin guard. Silver DryStat® fibers provide warmth, moisture wicking, and odor management, while the gradual compression stimulates blood flow to improve oxygen delivery to key muscles.

A #19530 | Unisex S-L – Marine | **\$23 MSRP \$30**

WOMEN'S SKI COMPRESSION — NEW

Feminine styling was added to this gradual compression ski sock designed to stimulate blood flow, increasing oxygen delivery to your muscles and reducing lactic acid production. This means less foot and leg swelling, cramp relief, and a performance boost! The Silver DryStat® technology wicks moisture fast and keeps your feet dry and fresh

B #19643 | W's S-XL – Black | **\$23 MSRP \$30**

SILVER SUPREME — NEW COLOR

The lightweight Silver Supreme is the right compromise for the patroller looking for minimal cushioning to provide the ultimate skin-like fit and feel in your boots. Lightweight shin padding, flat toe seams, and Silver DryStat® technology create a sock that fits well, breathes well, and is comfortable all day long.

C #19645 | M's S-XL – Black | **\$20 MSRP \$25**

SWEET SILVER SKI — NEW COLOR

Specifically designed for a woman's foot, this lightweight synthetic ski sock offers all of Eurosock's best technologies coupled with the latest fashion colors for

the patroller who wants the best without giving up feminine style. Strategically placed ventilation channels on the side provide great breathability, while the Silver DryStat® fibers provide freshness and superior moisture management.

D #19646 | W's S-L – Black | **\$20 MSRP \$25**

DIGITS SILVER SKI

No other sock in the market matches the high technology and the highest top quality. It is an outstanding item, a product of remarkable Italian-made engineering. Lightweight.

E #19293 | W's S-L – Pink | **\$24 MSRP \$34**

SILVER SKI LIGHT

One of the finest ultralight synthetic ski socks on the market, the Silver Ski Light is designed for maximum foot-to-boot feel. Flat toe seams and elasticized arch and toe support provide an ultra-smooth feel with no bunching. A ventilation channel provides moisture management, while the Silver DryStat® fibers take care of warmth and odor control.

F #19644 | M's S-XL – Teal/Turquoise | **\$15 MSRP \$20**

SKI ZONE

Eurosocks™ Ski Zone means comfort zone first, without leaving out the need for a technical support for the skier. The sock is surrounded by a thicker, but extremely soft, micro-supreme terry material particularly suited for the skiers who don't have their own custom-made ski boots. This medium weight ski sock adapts perfectly, like a ski-boot personal adjustable liner. Medium density padding absorbs shock and eliminates friction. Ventilation channels strategically placed between the padding transport moisture away from your skin.

G #19647 | M's S-XL – Grey/Jade | **\$15 MSRP \$20**

HESTRA®

LEATHER BALM

Hestra's all-natural Leather Balm is formulated to protect your gloves and is a great way to prevent leather from drying out. Prolongs the life, suppleness, and water-repellant properties of the leather. Apply with a polishing cloth and rub in until the leather is saturated. Light leathers may darken somewhat.

H #18669 | 2oz | **\$12**

VERNUM

New to the line for 2018, the Venum glove is a highly functional glove in a spring weight package. The backhand of the Venum is made from windproof, waterproof, and breathable Hestra Flextron 4-way stretch material, while the palm is made from impregnated goat leather. The CZone™ insert provides the extra layer of defense against the elements. Light foam insulation provides warmth, the polyester fleece liner provides comfort, and the neoprene cuff with Velcro® closure provides additional weather protection.

I #19612 | Unisex XS-XXL Black/Grey | **\$45 MSRP \$80**

ARMY LEATHER EXTREME MITT

Cold fingers are a thing of the past when you wear the Army Leather Extreme Mitt. Available in a wide range of sizes to accommodate both men and women, this mitt shares many of its features with Hestra's Heli collection. Beefed up with additional Fiberfill insulation, the Extreme can also be paired with replacement liners available below to add even more warmth! Four-way stretch and army goat leather outer materials provide durability and weather resistance, while the handcuffs keep the mitts secure to your wrists at all times. No more cold fingers with the Army Leather Extreme Mitt!

J #19502 | Unisex XS-XXL Black/Black | **\$90 MSRP \$160**

ARMY LEATHER PATROL SERIES — UNISEX

The name is right on point. The Army Leather Patrol glove, 3-finger, and mitt are a great addition to your patrolling collection this season. Constructed from proofed army goat leather and windproof, waterproof/breathable Hestra Dobby polyester melange fabric, the Patrol glove/3-finger/mitt stand up to abuse and adverse weather conditions. An upgrade from previous versions is the neoprene cuff with elastic and Velcro® straps, providing a secure fit and weather protection. Other features include G-loft insulation, a removable liner, and handcuffs.

NARVIK WOOL TERRY GLOVE - NEW

A classic, long cuff ski glove with timeless design. Natural colored vegetable tanned goat leather in the palm and a waxed cotton/polyester fabric on the back of the hand. Comes with a removable wool terry liner.

- S** #19835 | M's S-XXL – Navy | **\$105** MSRP \$190

HELI GLOVE

Made for those who often ski powder and need an extra-durable and warm companion on the mountain, it sounds like it was made for NSP patrollers! The outer material is made of windproof, waterproof/breathable Hestra Triton three-layer polyamide fabric with proofed army leather and a goat leather palm. The lining is a removable Bemberg/polyester with polyester/fiberfill insulation. Snow lock with Velcro® closure keeps out the powder, and the Hestra handcuffs keep the gloves securely on your wrist when they come off!

- T** #18348 | M's S-XXL – Black | **\$85** MSRP \$145

HELI 3-FINGER

The three-finger version of Hestra's super-popular Heli Glove uses all of the same patroller-friendly features as the Heli, including its length to deny the entrance of

powder, amazing warmth, and durability. Keep your hands extra warm with the Heli 3-Finger and find out what the hype is all about. The outer material is made of windproof, waterproof/breathable Hestra Triton three-layer polyamide fabric with proofed army leather and a goat leather palm. The lining is a removable Bemberg/polyester with polyester/fiberfill insulation. Snow lock with Velcro® closure keeps out the powder, and the Hestra handcuffs keep the gloves securely on your wrist when they come off!

ALL MOUNTAIN CZONE GLOVE AND 3-FINGER

New to the Hestra Sport lineup, the All Mountain CZone's are a fully loaded model at a base model price. Impregnated goat leather makes up the palm, fingers, and a portion of the backhand, while the rest of the outer material is made from windproof, waterproof/breathable Hestra proton polyamide fabric, a winning combination for durability and comfort in all conditions. The CZone membrane ensures that the entire glove will remain dry on even the wettest of days. For January days when the mercury really drops, the All Mountain's feature a pocket that can accommodate a hand warmer in each glove.

GORDINI

DOWNTEK™ GAUNTLET

Water-repellent down technology is now available in an over-the-cuff design with the introduction of the DownTek™ Gauntlet. The backhand of the shell is constructed from durable woven nylon, while the trim, palms, finger/thumb wrap caps, and reinforcements are constructed from genuine goatskin leather. Insulation is provided by 700 fill power DownTek™ consisting of 90 percent goose down and 10 percent waterfowl feathers on the back of the hand with Megaloft® insulation on the palm. The Hydrowick microdenier liner wicks moisture away from your skin, while the ultra-breathable, waterproof, and windproof Aquabloc® insert protects you from the external elements.

F #19681 | M's S-XXL — Black | **\$70** MSRP \$110

DOWNTEK™ LEATHER

Cold and wet don't stand a chance with the all-new Gordini DownTek™ Leather. The entire outer shell of the glove is constructed from genuine sheepskin.

Insulated with 750-fill-power DownTek™ on the backhand and Megaloft® on the palm side, the DownTek™ Leather is both warm and functional. The Hydrowick microdenier lining pulls moisture away from your skin, allowing these gloves to be worn in a wide range of conditions. The pre-curved construction provides optimal dexterity, while the wrist leash keeps your gloves close at all times.

G #19484 | M's S-XXL — Black | **\$99** MSRP \$150

DOWNTEK™ WOMEN'S AERIE GLOVE AND MITT

Stay warm. Stay dry. Stay happy. The new women's Aerie collection from Gordini will tick all of the boxes. Constructed from durable woven nylon with genuine goatskin palm and fingers, the 3/4-wrap caps provide added reinforcement and durability. Insulated with 750-fill-power DownTek™ insulation on the back of the hand and Megaloft® insulation on the palm side, the Aerie also features a Hydrowick microdenier lining to wick sweat and an Aquabloc® insert to ensure dry hands. The gauntlet cinch closure keeps snow and moisture out, while the leash allows you to take your gloves off on the lift without fear of dropping them!

H #19485 | Glove: W's S-L — Black/Black | **\$60** MSRP \$100

I #19486 | Mitten: W's S-L — Black/Black | **\$60** MSRP \$100

DOWNTEK™ MEN'S MOUNTAIN CREW GLOVE AND MITT

The Mountain Crew shells are constructed from tough, three-layer, windproof, waterproof/breathable fabric with durable woven nylon and genuine cowhide trim. Cowhide covers the palm, fingers, thumb, and wrap caps, providing durable reinforcement and a great look. DownTek™ 600-fill-power insulation covers the back of the hand, while Megaloft® insulation fills the palm and sides. Features a Hydrowick microdenier lining to keep your hands dry from within, while the Aquabloc® insert and DownTek™ protect you from outside moisture. Keep the heat without the bulk!

J #19482 | Glove: M's S-XXL — Black/Tan | **\$45** MSRP \$75

K #19483 | Mitten: M's S-XXL — Black/Tan | **\$45** MSRP \$75

THE POLAR II GLOVE AND MITTEN — ON SALE

The Polar II's now feature a smooth, four-way stretch nylon shell with three-layer, thermal ply, windproof, waterproof/breathable fabric with genuine deerskin trim. The palm and thumb have a digital grip material with genuine deerskin fingers. Newly insulated with DownTek™ 750-fill-power down on the back of the hand with Megaloft® insulation on the palm side, the Polar II's dare you to try and have cold hands! The Aquabloc® insert ensures your hands stay dry all day long, while the newly added leash keeps the gloves/mittens close at all times.

L #19679 | Glove: Unisex S-XXL — Black/Gold | **\$55** MSRP \$95

M #19680 | Mitten: Unisex S-XXL — Black/Gold | **\$55** MSRP \$95

TACTIC GLOVE

The Tactic glove is the perfect combination of synthetic materials and leather trim. The three-layer, thermal ply, windproof, waterproof/breathable outer fabric keeps you warm and dry on even the wettest days, the goatskin fingers add durability, and the leather trim looks really sharp. The 200 grams of InSilk™ insulation provides warmth on cold days, and the Hydrowick microdenier lining helps to expel moisture on warmer days. The Aquabloc® insert ensures dry hands all day long. Touchscreen capable.

N #19092 | M's S-XL — Black/Tan | **\$45** MSRP \$75

CHALLENGE XIII

This under-the-cuff glove is great for patrollers looking for a low-volume glove with all of the bells and whistles. The two-layer thermal outer fabric features double-woven nylon trim for durability and has digital grip and wrap caps on the palm, fingers, and thumb to keep poles securely in your hands. PrimaLoft® insulation provides the warmth, while the Gore-Tex® windproof, waterproof/breathable insert keeps you dry, guaranteed. Touchscreen capable.

O #19096 | M's S-XL – Black | **\$35** MSRP \$60

WOMEN'S CHALLENGE XIV

NSP ladies need the protection of Gore-Tex® as well, and the Challenge XIV glove for women provides it. Breathable stretch-woven fabric and neoprene trim make up the outer backhand material, and a synthetic leather palm, fingers, and thumb provide the grip. PrimaLoft® insulation helps to keep your hands warm on frigid days on the hill, and the Hydrowick microdenier liner helps to move hand heat and moisture out of the glove. Rain and snow are a non-issue thanks to the Gore-Tex® insert, guaranteed.

P #19094 | W's S-L Gunmetal/Pink | **\$35** MSRP \$60

HESTRA JOB

HESTRAJOB GLOVES

HESTRAJOB® TANTEL II

NSP continues to give patrollers as many options as possible with the Tanel II. These flexible, insulated leather utility gloves are meant for rough outdoor jobs, aka patrolling. Designed with durable goatskin leather and 100-gram insulation for added warmth, and finished with a thick cotton backhand, elastic wrist, reinforced fingers and knuckles, and a 2-inch safety cuff. Featuring the NSP shield logo branded into the leather with a custom leather brand!

POLES

NSP-BRANDED QUANTUM

NSP teamed up with Leki to once again provide you with an NSP-branded pole, this time of the fixed-length variety. Understanding that patrollers put their poles through a lot during the season, the NSP-branded Quantum is a great pole at an awesome price, so you won't feel too bad if you beat them up. Order more than one pair and get a discount on each set. The Quantum is made of high-quality tapered aluminum shafts and features the security-conscious Positive Angle grip, a racing basket, and a steel tip for precise pole planting and optimal grip on any terrain. Wrapped in custom NSP art featuring the NSP shield logo. Black/Red.

J #19499 | 44, 46, 48, 50, 52, 54 inches
\$35 MSRP \$59.95

Buy two or more pairs of the Quantum and receive a \$5 discount on each pair.

NSP-BRANDED HAUTE ROUTE LITE

This special NSP-branded version features Leki narrow-profile ultralight tempered aluminum shafts, a comfortable "soft" Aergon grip, and the support of Leki's Security Strap. Other updates include a redesigned big mountain basket and the new SpeedLock2 length-adjustment system: 33 percent smaller, 25 percent lighter, and 20 percent stronger! Wrapped in custom NSP art featuring the NSP shield logo. Carbide flextip. Weight: 492 grams.

K #19040 | Adjustable 44-57 inches (110-145cm) | **\$65 MSRP \$109.95**

AERGON 2 CONDOR — NEW!

Unique retractable pick (designed by Grivel) for steep pitch climbing or self-arrest. Forged steel pick folds away into the knuckle guard portion of the grip. The poles are 2-section workhorses for BC/AT that easily adjust on the fly with SpeedLock 2.

L #19827 | Adjustable 44-59 inches (110-150cm) | **\$100 MSRP \$149.95**

SPITFIRE VARIO S — NEW!

The Spitfire Vario S now comes in an adjustable version. The variable length, 110 up to 140 cm, makes it a pole for every occasion. Freeskiers, who ski all kinds of terrain, highly value a pole with variable length. With the new Speedlock+ the length of the Spitfire Vario S can be smoothly adjusted even

when wearing thick gloves. The Powder basket can be quickly changed for the Alpine basket in the blink of an eye.

M #19826 | Adjustable 44-55 inches (110-140cm) | **\$121 MSRP \$149.95**

TRIGGER S VERTICAL POLES

Simply the best touring system on the market, the Trigger S Vertical system is the first safety release for touring poles with a well-defined release function; think of it as a "ski pole binding." Agile when falling or being buried in an avalanche, this system frees your hands quickly so that you can create a breathing air pocket. The thumb strap provides maximum power transfer, and the flex band allows you to get on top of the grip during steep vertical ascents or downclimbs. Visit the NSP Online Store for additional information and product videos.

TOUR STICK VARIO CARBON V

With 100 percent carbon construction and a folded-down size of 16 inches, the Tour Stick Vario Carbon V is both lightweight and compact. Utilizing Leki's brand-new Trigger S Vertical system designed specifically for backcountry touring safety, it features a thermo tour mid grip, interchangeable alpine and big mountain baskets, and a carbide flextip for excellent grip on snow and ice.

N #19651 | Adjustable 44-53 inches (110-135cm) | **\$170 MSRP \$219.95**

AERGONLITE 2V

Also utilizing Leki's new Trigger S Vertical touring system, the Aergonlite 2V features fully aluminum construction in a two-piece design. The SpeedLock2 system makes adjusting the size of the pole on the fly simple. Features include a thermo tour long grip, interchangeable big alpine and big mountain baskets, and a carbide flextip for excellent grip on snow and ice.

O #19287 | Adjustable 44-57 inches (110-145cm) | **\$100 MSRP \$129.95**

GUIDE LITE V — NEW!

The Guide Lite V is the weight reduced version of the Guide Pro V. The shaft is made of high-strength aluminium with diameters of 16 and 14 mm and is slightly slimmer - this saves weight. It is also equipped with the unique Trigger Vertical Strap.

P #19828 | need copy | **\$125**

TRIGGER S PEAK VARIO S — NEW COLOR

The highest-quality aluminum and carbon with a novel racing concept, the Peak Vario S is an outstanding, adjustable Trigger S pole of the highest grade. Innovative features, such as the Speed Lock system, reach as far as the eye can see. If that's not enough, there's the sophisticated design. Also equipped with a deep-snow basket for optimal use in powder. Specs: Carbon 16-millimeter/14-millimeter 6.5 shaft, Trigger S slalom grip, carbide flextip, and adjustable from 44-56 inches. Now available in matte black and red.

Q #19649 | Adjustable 44-56 inches
\$95 MSRP \$149.95

CARBON 14 S

Light, stiff, and comfortable, the Carbon 14 S is the best of all worlds. A 14-millimeter carbon fiber shaft allows for optimal power transfer. The Carbon 14 S is the ideal professional among alpine ski poles. The Trigger S Slalom grip allows you to quickly get out of your poles when arriving at the scene of an incident. The sophisticated design compliments any ski adventure. High-quality components, sophisticated equipment, and resourceful details are all incorporated in this top-of-the-line fixed-length pole.

R #18813 | 44, 46, 48, 50, 52, 54 inches | **\$120 MSRP \$149.95**

STEALTH S — NEW COLOR

The Stealth S utilizes the Trigger S grip, which will work with your gloves or the specialized Leki Trigger S gloves. This style comes with two sets of baskets: one set of powder baskets for deep days and a set of racing baskets for days ripping groomers. Made from super-strong, heat-treated 6.5 aluminum with a 16-millimeter shaft and a carbide tip. New for the 2018-19 ski season, the Stealth S is available in a head-turning burnt orange and black color.

HELMETS

INSTINCT WITH MIPS

Now equipped with MIPS technology, Instinct reinforces its level of protection to provide you with the ultimate helmet. MIPS is a revolutionary technology that lets the helmet slide relative to the head, adding more protection against rotational motion to the brain caused by angled impacts. It has dual shell in-mold construction for optimal safety, adjustable venting for temperature control, a BOA® fit system providing a precise fit, and AVID Progressive EPS liner technology. The subtle brim looks great and allows for goggle integration and also features removable/washable ear pads. Weight: 420 grams. Size: S/M: (51-54 centimeters); M/L: (54-58 centimeters); L/XL (58-61 centimeters).

A #19642 | Full Black w/ MIPS (S/M, M/L, L/XL) | **\$125** MSRP \$169

MUTE – NEW!

Bold design, simple yet progressive features like removable earpads and goggle clip, and a bunch of colors that will match any of your outfit - including Olympic gold medalist David Wise's Signature Edition. Size: S/M: (52-55 centimeters); M/L: (55-59 centimeters); L/XL (59-62 centimeters).

B #19808 | Matte Grey & White (S/M, M/L, L/XL) | **\$64** MSRP \$75

MISSION (WITH MIPS) – NEW!

Where classic styling meets everlasting value, the all-new Mission brings the proven fit and function of Smith helmets to an audience who will never again call this piece of gear "just a helmet."

C #19898 | M's S-XL – Black | **\$85** MSRP \$130

MIRAGE (WITH MIPS) – NEW!

The Mirage combines single-zone adjustable venting with lightweight in-mold construction for a helmet experience that is reduced down to just what you need for a day on the hill. The dial-fit system and cozy long-fleece liner ensure that you are comfortable and warm. The Mirage exemplifies our belief that every detail should be considered.

D #19899 | W's S-L – Matte Black Pearl | **\$85** MSRP \$130

GOGGLES

SKERMO SNOW GOGGLE

Shaped by the winds of the Italian Dolomites and refined by athletes, the Skermo is Rudy Project's latest and greatest goggle iteration. Building from the success of the Klonyx and the goggle tradition that made Rudy Project's name in motorsports, the Skermo's rimless frame and cylindrical lens lends the wearer an ultralight fit with maximum peripheral vision. Complete with a full line of RP Optics Multilaser lenses as options, the Skermo is bound to be your new slope favorite.

FREEZE

The Freeze is an updated version of the very popular Mojo style. This year, we are offering a clear lens, great for low-light days and also night patrolling, as well as a Vermillon® lens for brighter days on the mountain. The double-layer face foam provides comfort, while the double lens with P80 Plus anti-fog coating supplies the performance you demand. **Small/Medium fit.**

I #19639 | Matte Black: Clear Lens | **\$21** MSRP \$25

J #19803 | Matte Navy: Vermillon® Lens | **\$21** MSRP \$25

NEVADA — NEW STYLES!

New for 2018, Bolle introduces a bold new style with the introduction of the cylindrical frameless Nevada goggle. Nevada is rapidly becoming the first choice of Team Bolle athletes. An extra-large field of view is provided by the frameless technology. The lenses feature Flow-Tech® venting for optimal airflow management and Carbo-Glas® anti-scratch and P-80 Plus anti-fog treatment. Triple-density face foam provides comfort for long days on patrol, and the siliconized strap keeps the Nevada in place. **Medium/Large fit.**

K #19634 | Matte Black Diagonal: Phantom+ Lens | **\$114** MSRP \$159

L #19804 | Matte Black Line: Photochromic Fire Red Lens | **\$85** MSRP \$119

M #19636 | Matte Black Corp: Grey Lens | **\$65** MSRP \$89

SCARLETT — NEW STYLES (WOMEN'S FIT)!

The refined frameless design gives the Scarlett a chic and sophisticated look. Scarlett is for women who want elegance, technology, and comfort without compromise. The lenses feature Flow-Tech® venting for optimal airflow management and Carbo-Glas® anti-scratch and P-80 Plus anti-fog treatment. Double-density face foam provides all-day comfort, and the siliconized strap keeps the Scarlett securely in place. **Small/Medium fit.**

N #19805 | Matte Blue Bali: Phantom+ Vermillion® Blue Lens | **\$85 MSRP \$139**

O #19638 | Shiny Black Night: Photochromic Vermillion® Blue Lens | **\$60 MSRP \$99**

SUPREME OTG (OVER THE GLASSES)

Supreme OTG delivers a premium spherical lens goggle to the patroller who requires an over-the-glasses frame. The spherical lenses provide a wide field of view, the double lens with Equalizer® vents prevent fogging, and the Carbo Glas® high-tech protective lens treatment on the outer lens significantly reduces scratching. Triple-density face foam ensures all-day comfort, and a siliconized strap keeps the Supreme OTG securely attached to your helmet. **Medium/Large fit.**

P #19640 | Matte Dark Grey & Red: Phantom Fire Red Lens | **\$120 MSRP \$169**

Q #19641 | Shiny Black & Red: Vermillion® Gun Lens | **\$70 MSRP \$99**

Z5 OTG (OVER THE GLASSES)

An over-the-glasses goggle that allows wearers of prescription glasses to benefit from Bollé technologies: perfect air flow with the Flow-Tech® venting to avoid fog on your lens, double-layer face foam, silicone strap, and anti-fog/anti-scratch treatment for extreme comfort and a unique vision. Available with a Modulator™ 2.0 Citrus Gun NXT® photochromic lens featuring a silver mirror, it is built with NXT® technology for superior optical clarity and impact resistance. It adapts instantly to changing light conditions thanks to LTS (Low Temperature Sensitivity) technology. **Medium/Large fit.**

R #19445 | Matte Black/Red: Sunrise Lens | **\$55 MSRP \$69**

DUCHESS — SALE!

The Duchess is not only a beautiful women's goggle, it comes with a ton of features. The double polycarbonate spherical vented lens utilizes a P-80 Plus anti-fog/anti-scratch coating that disperses water molecules across the surface of the inner lens, restricting moisture buildup that can impede a clear view. Triple-density face foam puts a soft layer of polar fleece against your skin and includes two layers of foam to ensure a firm and comfortable fit. Available with the Phantom Vermillion® Blue photochromic lens featuring a blue mirror that increases contrasts. It adapts instantly to changing light conditions thanks to LTS (Low Temperature Sensitivity) technology. **Small/Medium fit.**

S #19242 | Black/Gold: Rose Gold Lens | **\$72 MSRP \$119**

TSAR

Thanks to the innovative B-Flex technology, the Tsar is the first universal fit goggle. Using an integrated, flexible, and memory-shape material, the Tsar comfortably follows the contours of your unique facial structure. Say goodbye to pressure spots and drafty gaps; you will now be able to enjoy the pleasure of patrolling with maximum comfort. Features include Flow-Tech® venting, triple-layer face foam, Forestay™ siliconized strap, Equalizer® double lens, and Carbo-glas® anti-scratch coating. Available with a Phantom+ lens technology, improving your ability to read the terrain in even the most extreme conditions. The lens adjusts automatically, and Bollé's adapted polarization feature allows you to see ice and relief details. It gives you something better than your own eyes! **Medium/Large fit.**

T #19631 | Matte Black: Phantom+ Lens | **\$140 MSRP \$189**

VIRTUOSE — INTERCHANGABLE LENSES

The Virtuose is Bollé's first easily interchangeable goggle system, utilizing an advanced 1-Click changing system. Press and release the button on the side to release and remove the lens, then replace and secure the new lens by locking it into position. The Virtuose comes with both the Vermilion® Gun and Aurora lenses. The spherical lenses give you the optimal field of view for a safe and enjoyable day on the hill. **Large fit.**

U #19448 | Matte White/Grey: Black Chrome/Aurora Lenses | **\$120 MSRP \$169**

V #19630 | Black Tone on Tone: Grey/Lemon Gun Lenses | **\$120 MSRP \$169**

NORTH STAR — NEW!

CHROMAPOP™ LENS TECHNOLOGY

When you see more, you can do more. Smith's proprietary ChromaPop™ lens technology enhances clarity and natural color to let you effortlessly see more detail. More detail gives you the advantage needed to perform confidently and have more fun. **ChromaPop Sun (VLT 9 percent):** perfect for cloudless, blazing light conditions, the layered green mirror over a grey base eases the harsh glare of high-elevation sun while helping your eyes see more information in terrain ahead of you. **ChromaPop Storm (VLT 50 percent):** Tuned to bring the most out of an environment when the storm moves in and the lights go out. It optimizes contrast even on the worst days so you can stay out longer.

SMITH I/O MAG™ X – NEW!

Smith took their MAG™ interchangeable system and integrated it with a more expansive window to the mountains. The I/O MAG™ XL's extra-large spherical ChromaPop™ lens enhances clarity and amplifies your experience. With OTG compatibility in mind, the I/O MAG™ XL design integrates seamlessly into helmets to provide the ultimate fit and function as a fog-free system.

BLACK HOLE™ DUFFEL BAG — UPDATED STYLE!

Tough and highly weather-resistant, and keeps your gear protected and easily accessible. The main compartment opens via a zippered U-shaped lid, which has a pair of zip-closing mesh pockets on the underside for easily lost items. A zippered exterior pocket holds all the stuff you need quickly. The padded bottom panel adds structure and helps cushion the load when your duffel gets the baggage-handler treatment. Carrying options include padded, removable shoulder straps for a backpack carry, webbing handles with a snap closure, and haul loops at either end for linking multiple bags. Daisy chains let you lash additional gear to the outside. **NSP-Branded.**

S #19699 | **\$45 MSRP \$60**

ROSSIGNOL

FREERIDER 24 SL — WOMEN'S FIT

The Deuter Freerider 24 SL women's winter pack demands attention with its modern design and functional abilities. Featuring the Alpine Backsystem, the Freerider 24 SL guarantees a comfortable day tour, even with heavy loads, and includes several storage options for safety tools, goggles, and small personal items. On average, women's backs are not quite as long as men's; the SL carry system is thus slightly shorter than traditional Deuter packs. The Freerider 24 SL is now available with a reflective white cross for easy identification while patrolling.

A #19468 | Granite/Magenta | **\$110 MSRP \$139**

B #19663 | Granite/Magenta w/ reflective white cross | **\$120**

FREERIDER 26

The Deuter Freerider 26 winter pack offers the patroller everything they would expect from a Deuter pack. Featuring the Alpine Backsystem, the Freerider 26 includes several storage options for safety gear, goggles, maps, etc., and guarantees a comfortable fit no matter how heavy the load is. Slightly smaller than the Freerider Pro 30 in overall size and weight, this pack transitions easily from days on patrol to days off in the backcountry. The Freerider 26 is now available with a reflective white cross for easy identification while patrolling.

C #19467 | Black/Granite | **\$110 MSRP \$139**

D #19661 | Black/Granite w/ reflective white cross | **\$120**

FREERIDER PRO 28 SL — WOMEN'S FIT

Just like the Freerider Pro 30, the Freerider Pro 28 SL has received an updated fabric package utilizing Deuter's highly abrasion-resistant MacroLite 420 fabric. The highly durable attachment options guarantee a quick and solid mounting of your skis, snowboard, etc. The SL women's fit system employs smaller buckles and narrow tapered strap ends to prevent the SL shoulder straps from chaffing under the arms. It includes a front safety gear pocket for your shovel, handle, and probe. Since on average women's backs are not quite as long as men's, the SL carry system is slightly shorter than standard Deuter packs. The Freerider Pro 28 SL is now available with a reflective white cross for easy identification while patrolling.

E #19278 | Blackberry/Arctic | **\$105 MSRP \$159**

F #19662 | Blackberry/Arctic w/ reflective white cross | **\$115**

FREERIDER PRO 30

Deuter's amazing, full-featured pack was updated with Deuter's special high-density MacroLite 420 denier polyamide fabric, which offers high abrasion resistance due to its tight weave. Attach your skis, snowboard, or snowshoes vertically, or carry skis A-frame style or diagonally. You can access the main compartment without detaching your skis or board via the fully zippered back panel. The Freerider Pro 30 has a large shovel compartment at the front with additional probe and handle sections to keep your avy gear secure and easily accessible. This is a versatile pack that you can fill with medical supplies and use while working, or stuff it full with play gear on your days off for exploring with friends.

G #19276 | Black/Granite | **\$125 MSRP \$159**

H #19277 | Black/Granite with reflective white cross | **\$135**

GUIDE 35+ ALPINE PACK – NEW!

The Guide35+ is the ultimate mountaineering expert pack and is now even more experienced, slim and lightweight. The well-designed alpine backpack guarantees absolute robustness, a snug fit and maximum control on demanding tours.

I #19845 | Navy/Granite | **\$125** MSRP \$165

STREAMER 2.0L AND 3.0L HYDRATION BLADDERS

Drinking regularly while exercising will keep you charging for longer. The Deuter hydration systems, with their “Helix Valve,” enable a constant flow of liquid without interrupting the flow of your sports. Top-performing hydration systems in two sizes, with competent hydration technology from Source Vagabond. The Taste-Free bladder has a special film with an inner surface as smooth as glass that keeps water for days and even weeks without changing taste. Due to the special molecular properties of the bladder, this system is very hygienic and easy to keep clean. Taste-Free tube: The special co-extruded tube has a glass smooth inner surface without any taste. Streamer Clip: Full-width top opening for easy filling and cleaning. Easy-to-use sliding clip. 100 percent leakproof.

J #18596 | 2.0L Bladder | **\$22** MSRP \$32

K #18597 | 3.0L Bladder | **\$24** MSRP \$34

STREAMER THERMO BAG — 3.0L

Keep your water cool in summer and avoid freezing water in winter with this insulating bag. The 3-liter capacity allows large bladders to fit, but works well with smaller bladders, drink bottles, and even food containers as well. The Thermo Bag can be carried either inside your pack or on the outside. Side loops enable attachment to the outside using the pack compression straps. Reflecting foil liner.

L #19071 | Thermo Bag – Black | **\$13** MSRP \$20

STREAMER TUBE INSULATOR

Deuter's Stream Tube Insulator protects your water from freezing in extremely cold conditions. This fleece-lined flexible neoprene cover is conveniently zipped on and off without removal of the tube from the system. Materials: neoprene/thermofleece.

M #19072 | Tube Insulator – Black | **\$13** MSRP \$20

TRANSCIVERS

TRACKER2™ AVALANCHE TRANSCIVER

North America's best-selling avalanche transceiver. Legendary ease of use, real-time display, and triple receive antenna. An intuitive mechanical search/transmit switch makes it easy to use right out of the box. Includes special mode and multiple burial indicator lights. Thinner profile and harness than the Tracker DTS. Additional product information available online.

A #19133 | Tracker2™
\$195 MSRP \$299.95

TRACKER3™ AVALANCHE TRANSCIVER

Tracker's legendary ease of use in a smaller package. The Tracker3™ has the Tracker2™'s renowned ease of use and instantaneous real-time display — and it's 20 percent smaller and lighter. Tracker3™ is the thinnest multi-antenna transceiver available. Three antennas and no-nonsense multiple burial searching. Additional product information available online.

B #19134 | Tracker3™
\$230 MSRP \$335

PROBES AND SHOVELS

STEALTH 240/270/300 AVALANCHE PROBES

Stealth quick-lock probes feature the easiest and fastest assembly on the market, with no loose cable to cause hang-ups. The top segment

stealthily nests inside the next probe section, reducing the number of segments and the size of the probe bundle when it's disassembled inside your pack. Equipped with laser-etched depth markings for measuring snowpack and/or victim depth to determine the dimensions of the excavation area before shoveling. Stealth probes are built to last and save valuable seconds during an avalanche rescue when time matters.

C #19281 | Stealth 240
\$33 MSRP \$49.95

D #19459 | Stealth 270
\$40 MSRP \$59.95

E #19528 | Stealth 300
\$46 MSRP \$69.95

B-1 EXT AND B-2 EXT AVALANCHE SHOVELS

The B-1 and B-2 EXT avalanche shovels are both light and extendable for weight-conscious skiers and snowboarders that prefer the comfort and functionality of an extendable shovel. The 6061 aluminum BCA Bomber shovels feature an oval shaft with a more packable, bombproof, "ferrule-less" blade, ergonomic grip, and T6 heat treatment. Includes an end cap on the shaft, which prevents snow from building up along the inside. The Bomber line boasts an off-the-chart strength-to-weight ratio while taking up minimal storage space in your pack. The B-2 EXT features a larger shovel blade and longer extendable

handle than the smaller B-1 EXT model. Full product specs available in the NSP Online Store.

F #19283 | B-1 EXT | \$34 MSRP \$49.95
G #19284 | B-2 EXT | \$38 MSRP \$55

RS EXT SHOVEL

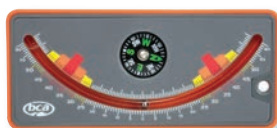

The RS EXT avalanche shovel is both light and extendable for weight-conscious patrollers that prefer the comfort and extendability of an extendable shovel. "Hoe mode" creates the ultimate tool for "strategic shoveling" and digging out stuck snow machines. The BCA avalanche rescue shovel line boasts an off-the-chart strength-to-weight ratio while taking up minimal storage space in your pack. Remember, the excavation process in an avalanche rescue is where the most time can be lost or gained.

H #19529 | RS EXT | \$48 MSRP \$69.95

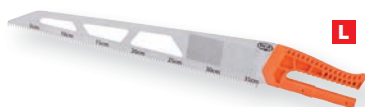

TRACKER 3 RESCUE PACKAGE – NEW!

The T3 Avalanche Rescue package is a smart purchase for those looking to gear up for their first backcountry experience, or experienced backcountry travelers wanting to replace their old outdated equipment. This Backcountry Access 3 part package comes with our industry-leading Tracker3 avalanche transceiver, our extendable B-1 EXT avalanche shovel, and quick deploying Stealth 270 avalanche probe.

DAY TRIPPER LITE

The Day Tripper Lite is the ideal resource for a single day in the woods, whether you're exploring solo or with a friend. Ultralight and perfectly portable, it fits easily into your day pack and comes equipped with the essentials you may need to manage muscle pain, blisters, splinters, ticks, cuts, and other basic first aid issues. At once complete and compact, the Day Tripper Lite is proof that good things come in small packages.

H #19437 | \$10 MSRP \$15

HIKER KIT

The Hiker is built for weekend warriors. A must-have companion when you and a friend hit the trail for a day or two, the Hiker is equipped with carefully selected supplies tailored to meet any basic first aid needs you might experience along the way. The Hiker is as comprehensive as it is compact: blisters, stomach aches, sprains, and wounds won't slow you down for long when you have the lightweight Hiker with you.

I #19438 | \$17 MSRP \$25

BACKPACKER KIT

The Backpacker is designed for a pair of outdoor explorers on a four-day foray into the wilderness. Outfitted with a handpicked assortment of first aid supplies designed to help your short adventure go smoothly, it contains remedies for a range of conditions — from cuts and allergies to upset stomach and dehydration. Whether you're stretching out your weekend in the woods or embarking on a multiple-night hike, the Backpacker has your back.

J #19439 | \$27 MSRP \$39

EXPLORER KIT

The Explorer is perfectly tailored for families or smaller groups on week-long adventures. Ideally suited for extended camping or long stretches on the trail, it's outfitted with an abundance of first aid supplies to remedy a variety of injuries and ailments, from cuts and sprains to allergies and dehydration. Comprehensive yet compact, the Explorer is equipped to keep you and your family, friends, or crew safe as you see what's beyond the next switchback.

K #19440 | \$41 MSRP \$59

GUIDE KIT

The Guide is essential for leading a group on any long outdoor excursion. Ideal for outings lasting up to two weeks, it's equipped with an abundant array of necessities to treat everything from severe bleeding, fractures, and pain to everyday aches, blisters, and scrapes. The Guide empowers you to provide high-quality first aid to several people and explore the wilderness with greater security — and enjoyment. As with any good guide, you can count on this one!

L #19441 | \$69 MSRP \$100

MOUNTAINEER KIT

The Mountaineer is the pinnacle of wilderness medicine kits, designed to serve as the group kit for up to 10 people and 28 days. The most comprehensive kit in the Mountain Series, the Mountaineer contains first aid for a broad spectrum of over 200 types of injuries and ailments, from severe bleeding, dehydration, dental problems, and broken limbs to insulin shock, lacerations, allergies, and muscle pain. Perfect for remote wilderness environments, the Mountaineer is equally ideal for urban disasters in which medical care may be inaccessible. Take it with you on your adventures or stow it in your car, this kit will have you covered.

M #19442 | \$139 MSRP \$200

ADVENTURE[®] DOG SERIES KITS

SEE THE NSP ONLINE STORE FOR CONTENTS OF EACH KIT

TRAIL DOG KIT

This dog-specific kit gives you comprehensive medical solutions for your trail buddy. It is catered to the types of injuries dogs encounter most on the trail — primarily to their paws, with an assortment of dressings, bandages, and tools like the splinter picker/tick removers to remove ticks, thorns, or those pesky fox tails.

N #19443 | \$17

HEELER KIT

The Adventure[®] Dog Series is designed for your four-legged sidekick who never leaves home without you. Whether hiking, camping, hunting, or working the range, our furry companions often need emergency medical supplies, just like we do.

RESCUE ESSENTIALS

SLISHMAN TRACTION SPLINT

The STS solves the current problems with other femoral traction splints. The STS doesn't extend past the end of the foot because it pushes traction from the hip. You never have to leave the sphere of comfort with your patient. Indicated for use with tib/fib fractures and foot amputations. Specs: three telescoping aluminum poles, two easy-to-use thumbscrew locks, neoprene ankle hitch, adjustable nylon groin strap with quick-release buckle, and optional mid-leg neoprene strap. Corrosion and shock resistant, temperature stable. Carrying case dimensions: 22 inches by 3 inches by 3 inches. Weight: 1 pound, 5 ounces/600 grams. Additional product information and product demonstration videos available online.

A #18705 | \$160

QUIKLITTER™ LITE

Rescue Essentials has now developed the QuikLitter Lite™. This low-cost emergency litter is an even lighter and more compact version of their popular QuikLitter™. It features 10 large handholds, four on each side and one each at the head and foot, allowing for easy patient handling. With a load capacity tested to 750 pounds, it can be employed for everyday use as a soft stretcher or as a backboard lift assist. A rescue litter you can fit into your pocket! For carrying in your patrol pack or patrol vest.

B #19550 | \$21

QUIKLITTER™

The Rescue Essentials QuikLitter™ is the lowest-cost emergency litter available. It features 10 large handholds, four on each side and one each at the head and foot, allowing for easy patient handling. With a load capacity tested to 500 pounds, it can be employed for everyday use as a soft stretcher, as a backboard lift assist, as well as for MCI emergency patient transport. The QuikLitter™ is constructed of water-resistant, non-woven material, is latex-free, and is rated to 500 pounds.

C #19270 | \$15

DIAGNOSTIX™ 2100 PULSE OXIMETER

A portable, feature-rich pulse oximeter that provides spot reading of SpO2 and heart rate. This model reads SpO2 and pulse rates with an easily visible Pleth Wave display. Features include six display modes, 10 display brightness settings, 25 percent smaller than competition, and dual color OLED display. Runs on two AAA batteries. Comes with instruction booklet and a two-year limited warranty. Meets or exceeds ISO 9919.

D #19551 | \$95

MEDICAL PACK INSERT

The Medical Pack Insert conveniently organizes your medic supplies in your pack by storing them together in a slim, semirigid, nylon folded pack. The hook-and-loop Velcro® secures the Throw and Go Bags, making for outstanding organization that will increase the efficiency of your response.

E #18706 | \$55

swix®

EVO PRO SIDE EDGE TUNER

The Swix EVO Pro Edge Tuner is a high-precision, electrical side edge tuner developed to restore, maintain, or produce a World Cup finish. Easy to operate due to its ergonomic design, the EVO's side edge angle is index adjustable from 90 to 5 degrees. Changing the EVO Pro's sharpening disc is fast and easy. Your EVO Pro will come with the FINE sharpening disc for super-precise World Cup and exceptional recreational ski polishing. Spare discs (coarse and medium) are now available in the NSP Online Store. The durable diamond discs are self-adjusting, as they are attached to a spring, making it impossible to misadjust the cutting depth.

F #19465 | EVO Pro | \$335 MSRP \$550

IMAGE ONLINE #19665 | Spare Disc: Coarse | \$60 MSRP \$100

IMAGE ONLINE #19666 | Spare Disc: Medium | \$60 MSRP \$100

DIGITAL SPORT WAXING IRON

This is a high end digital iron at economy pricing. The 18-millimeter-thick plate allows for optimal heat distribution, while the digital microprocessor ensures precise temperature control. The digital display is controlled by the adjustment wheel. Operating temperatures from 80 C to 170 C (176 F to 338 F). Output: 110 volt.

G #19466 | \$105 MSRP \$150

ECONOMY WAXING IRON

This is a great waxing iron that is competitive with far more expensive models. Redesigned from scratch with an ergonomic body and wide metal plate that suits alpine, snowboard, and Nordic bases, it is angled at one side to make it easier to keep a constant speed when melting the wax. The thick metal plate ensures stable heating. Output: 110 volt.

H #18819 | \$35 MSRP \$60

swix®

T75 NORTH WAXING IRON

The most important function of a waxing iron is temperature control! Variable temperature function for all wax types and an ergonomic shaped handle for easy movement along the base. Don't use Mom's iron on your valuable piece of equipment.

IMAGE ONLINE #19858 | **\$36** MSRP \$45

JAW ECONOMY VISE — THREE PIECES

This is a great starter vise for patrollers who like to tune their own equipment. Featuring three pieces with jaw fixation, the jaws open from 35 millimeters to 90 millimeters and have 60- and 90-degree side-edge working positions. Lightweight and compact.

J #18659 | **\$115** MSRP \$160

POWER PRO VISE — THREE PIECES — UPDATED

As the width of skis continues to grow, it becomes difficult to find a vise that accommodates the larger freeride skis of today. This is where the Power Pro comes in, with its ability to hold up to a 155-millimeter ski at the waist. The centerpiece of the vise sits 30 millimeters further out from the table compared to other vises for better alignment with support. Front and back supports have screw fixation for different tuning angles. Product demonstration video available in the NSP Online Store.

K #19664 | **\$175** MSRP \$250

YOUNG ADULT PATROLLER GEAR

PATAGONIA BOYS RETRO PILE JACKET

The easy-wearing boys Retro Pile Jacket is made from 100 percent polyester double-sided solid shearling for warmth that stands up to serious chill. Flat-seam construction throughout reduces bulk and helps minimize chafing.

LEKI VARIO XS

The ideal adjustable aluminum shaft that grows with your kids! The Vario XS is lightweight, durable, resilient, and always a reliable companion on snow. Positive Angle soft grip provides an ideal platform and the necessary security, while adjusting the length of the poles is quick and easy even wearing gloves or mitts thanks to the LEKI Speed Lock lever.

S #19655 | Adjustable 30 to 43 inches
\$40 MSRP \$64.95

FORCE DRY

Utilizing a gently heated air flow, the Force Dry Shoe and Glove Dryer safely eliminates unwanted wetness from your footwear or gloves in about an hour; restoring comfort and increasing the longevity of your gear. More compact than its big brother, the Force Dry DX, the Force Dry is the perfect size for drying your gloves after long days on patrol.

A #19479 | \$35 MSRP \$50

HELMET HOLDER FOR FORCE DRY DX

The Force Dry DX helmet accessory can be attached to the Force Dry DX Boot and Glove Dryer to direct warm air through the interior of your headgear, eliminating trapped perspiration and moisture. Start every day on patrol in comfort with a warm and dry helmet.

B #19251 | \$10 MSRP \$13

FORCE DRY DX

Ski and snowboard boots are hard to dry, usually taking longer than one night to air-dry. The DryGuy™ Force Dry DX uses gently warmed “forced air” technology to dry boots, gloves, shoes, and accessories in about one hour. The approximate temperature of the air coming out of the nozzle is 105 F, warm enough to dry without causing damage. The Force Dry dries quickly, efficiently, and quietly, eliminating moisture and preventing growth of bacteria and mold.

C #17173 | \$60 MSRP \$80

TRAVEL DRY DX

The Travel Dry DX utilizes hybrid drying technology with a patented ram-air ventilation system. Fresh air enters the rear intake, is forced over the thermal heating elements with a powerful CPU fan, and vents warm air throughout the toe box, removing wetness or warming chilly boots or shoes in a fraction of the time. The Travel Dry comes with a 12-volt DC and 120-volt AC household outlet for use at home or in the car, making it an essential home and travel drying accessory.

D #17224 | \$30 MSRP \$40

BOOT GLOVE

No more cold feet! Skiers will appreciate the lasting warmth WickedWarm™ provides, adding up to 53 F to your boots' toe boxes and conserving heat loss where it matters most: your feet! WickedWarm™ combines the BootGlove™ alpine and ThermoFeet™ heat reflectors into an integrated thermal-retention system. Easy to install! Available in three sizes: Medium fits men's 5-9; Large fits men's 10-13.

E #17118 | Unisex S-L - Black | \$20 MSRP \$30

SOFSOLE

SOFSOL FIT PERFORMANCE INSOLES — NEW LOOK!

The Sof Sole FIT series is tailored to your specific arch height and cushion type to complement your natural range of motion and maximize performance. Available in low, neutral, and high arch types, these insoles can be easily trimmed to size. An anatomical nylon plate provides torsional stability while maintaining flexibility and range of motion. An abrasion-resistant CK mesh top cover with antimicrobial properties helps prevent bacteria growth and foot odor. Arch heights are 2.8 centimeters, 3.0 centimeters, and 3.3 centimeters (low, neutral, high). A cost-effective solution for ski boots, snowboard boots, hiking boots, athletic shoes, and more! Sizing: Small: W's 7-8; Medium: W's 9-10/M's 7-8; Large: M's 9-10; XL: M's 11-12.

TRACTION SPIKES

Yaktrax® Spikes are excellent for navigating icy sidewalks, parking lots, and driveways. The seven tungsten carbide spikes placed under the ball and heel of the foot deliver aggressive grip, even in glare ice conditions. Compact and lightweight, the Yaktrax Spikes stretch to fit most types of footwear and conveniently stow away in any coat pocket.

K #19695 | Unisex S/M and L/XL – Black
\$15 MSRP \$20

SUMMIT

The Yaktrax Summit is a heavy-duty traction device that is essential for any winter hike or backcountry excursion. Its 3/8th-inch triangular carbon steel spikes bite into packed snow and ice, providing superior grip on sloped surfaces. Featuring the patented Boa® Closure System, the Summit offers superior customized fit that is both comfortable and secure.

L #19480 | Unisex S-L – Blue | \$55 MSRP \$90

SKI
Yaktrax Ski offers confidence and comfort while walking in your ski boots, both on and off the mountain. Yaktrax Ski have a unique, patent pending “Rocker Sole” design that promotes a natural walking motion. Made of durable rubber, Yaktrax Ski protects your ski boots from excessive wear while walking on solid ground. Yaktrax Ski also improves traction on snow and ice with the unique, rounded design of the bottom tread that does not pack snow.

M #18336 | Unisex XS-L – Black | \$15 MSRP \$20

RUN

The Yaktrax Run is the only traction device anatomically designed to meet the needs of runners braving the winter elements. Run naturally on packed snow and ice with the Yaktrax Run's combination of removable spikes and steel coils, providing 360 degrees of unbeatable traction. Continue your training during the winter with the same stability you are accustomed to on dry surfaces. The Yaktrax Run can be worn in temperatures as low as minus 41 F.

N #18222 | Unisex S-XL – Gray/Red | \$25 MSRP \$40

PRO

The Yaktrax Pro will instantly give you better traction, confidence, and safety on packed snow or ice. Walk, run, or work on slick surfaces with the same stability you're accustomed to on dry surfaces. Don't let the winter weather put a damper on your outdoor activities or athletic training with the Yaktrax Pro!

O #18487 | Unisex S-XL – Black | \$20 MSRP \$30

DIAMOND GRIP

Diamond Grips provide aggressive traction for all winter walking conditions, from boiler-plate ice to backcountry snow and everything in between. They are also effective when transitioning through gravel, rock, and mud from icy surfaces. Made of case-hardened steel alloy, and strung on steel aircraft cable, the patented Diamond Beads have hundreds of biting edges that grip in all directions. The bead assemblies are riveted to a tough rubber sling that remains elastic in subzero temperatures. They are easy to put on and take off, yet fit snugly and stay on without the need for additional straps. Diamond Grips are also self-clearing, so there is no snow or ice buildup. Check the NSP Online Store for sizing charts and instructions.

P #19061 | Unisex S-XL – Black | \$30 MSRP \$45

WARMERS

FOOT WARMERS

Anyone who enjoys the outdoors and wants to stay outside longer will appreciate Yaktrax Foot Warmers! They are odorless, environmentally safe, and provide a heat source for comfort in all cold conditions. Yaktrax Foot Warmers are the choice of athletes, anglers, hunters, campers, spectators, skiers, construction workers, and more. The average activated temperature is 105 F (40 C).

Q #19481 | Unisex S/M and M/L | \$4 per pair

HAND, TOE, AND BODY WARMERS

Yaktrax Warmers are the superior source of heat for anyone braving the cold. They are environmentally safe, odorless, and stay warm for hours. Their average activated temperature is 142 F, with a peak temperature of 149 F, making them a welcome source of heat during winter activities. Yaktrax Warmers are the top choice of outdoor enthusiasts, workers, athletes, and spectators.

SUPER 8 BELAY/RAPPEL DEVICE

Fast and easy loading, the Black Diamond Super 8 belay/rappel device uses a unique design that eliminates excess material by thinning out the non-rope bearing areas. Comes in a modern 8 design for smooth handling and is ideal for the retro climber or search and rescue professional. Works well with double 8.1 millimeter ropes up to 11 millimeter single lines.

E #19460 | Super 8 – Black | **\$12 MSRP \$15.95**

TRIGGERPOINT

GRID VIBE FOAM ROLLER

Take foam rolling and your recovery routine to the next level with the all-new GRID Vibe vibrating foam roller. This precision-engineered vibrating roller combines foam rolling plus vibration to provide a faster, more effective recovery. Designed with TriggerPoint's signature GRID pattern and a smaller diameter, the compact GRID Vibe targets more layers of muscle tissue while channeling blood and oxygen to repair muscles as you roll, while the vibration relaxes the muscle and minimizes pain. Calibrated with a single, optimal vibration frequency, the GRID Vibe is tuned to relax muscles, reduce pain, and maximize the effectiveness of your rolling regimen toward muscle recovery and improved mobility. Travel friendly, the GRID Vibe acts like a personal masseuse on the go, offering total body relaxing massage in a compact vibrating roller. Dimensions: height: 12 inches; diameter: 3.5 inches; weight: 2.15 pounds.

F #19696 | Orange | **\$80 MSRP \$99.99**

NANO™ FOOT ROLLER

Innovative foam roller specifically designed to increase flexibility and relieve minor muscular aches and pains associated with the foot, the NANO™ Foot Roller surface provides a systematic approach to blood flow by channeling nutrients directly to the tissue. Designed

to mirror the feeling of a massage therapist's fingertips, the NANO™ Foot Roller is supported by an educational platform that is recognized globally for its effectiveness in the application of myofascial release.

G #19697 | Orange | **\$16 MSRP \$24.99**

GRID FOAM ROLLER

The GRID foam roller is for anybody who wants to move better. Use the GRID for a self-massage and roll through the tight muscles, knots, and kinks that prevent feeling good and moving well. The GRID foam roller is designed with proprietary Distrodensity zones. This three-dimensional surface has a variety of widths to replicate the feeling of a massage therapist's hands. Additional product specs and product videos available in the NSP Online Store.

H #19431 | Orange | **\$24 MSRP \$39.99**

GRID STK FOAM ROLLER

The GRID® STK is an innovation in hand-held foam rollers. Specifically designed with GRID® surface and AcuGRIP handles to roll, release, and relieve minor aches and pains. The world's first hand-held foam roller wrapped in the patent-pending GRID® three-dimensional surface channels nutrients directly to the tissue for health and mobility. Additional product specs available in the NSP Online Store.

16-OUNCE COFFEE FLASK (FIP LID) — NEW!

Not too big, not too small — our 16 oz Coffee Flask is just right. The same size as a large at most coffee shops, this flask delivers your daily caffeine fix without the disposable cup. TempShield™ double wall vacuum insulation keeps your chai tea latte hot for up to 12 hours and your cold brews icy for up to 24.

- S** #19849 | 16-ounce Coffee Flask | **\$18**

18-OUNCE FOOD FLASK

After a day of patrolling, you'll be happy to see that what you put inside the 18-ounce Food Flask is still as piping hot or ice cold as when you packed it. From hot soups to frozen smoothies, it keeps your favorite foods at the perfect temperature. Professional-grade stainless steel means it won't retain or transfer flavors. Nobody wants this afternoon's protein shake to taste like last week's coconut curry.

- T** #19547 | 18-ounce Food Flask – Stainless | **\$25**

KOOLER CUPS — NEW!

The new Cooler Cup is two great things in one: it's a can or bottle cooler, and, with one quick switch, it's a 12 oz beverage cup. As a Cooler Cup, it's brilliantly versatile with a silicone sleeve that lets you slide in a narrow bottle or a can—all with the same snug fit. Pop off the sleeve and you have a 12 oz cup made to keep cold drinks cold and hot drinks hot. The ultimate win-win.

NSP-BRANDED ACCESSORIES

NSP SKI STRAPS

Keep your skis in top shape after use by securing them with the NSP ski straps. These 2-inch-wide straps have a soft piece at one end that slides in between the bases of your skis. Simply wrap the remaining material around the skis and fasten with the Velcro® strap. For best results, use two straps, one toward the top and one toward the bottom of your skis. Comes in black, red, pink, and blue with the NSP shield logo in white in two locations.

A #18335 | Black – Sold individually | \$4

B #18678 | Red – Sold individually | \$4

C #18782 | Blue – Sold individually | \$4

IMAGE ONLINE #19552 | Pink

NSP RETRACTABLE PASS HOLDER

High-strength reel clips to your jacket, pants, or pack. Secure strap clip holds pass or ID tightly and securely. Smooth cord action for easy pass/ID access. Features the NSP shield logo in a resin dome on the body of the pass holder.

D #18330 | \$5

NSP KEYCHAIN

A great way to show off the NSP colors, these flashy little keychains would be a practical gift for each candidate on your patrol, or as a way of recognizing a patroller's completion of an education course or other achievement.

E #820 | NSP shield | \$3

NSP HITCH PLUG

This exclusive hitch plug features a clear coat polish that doesn't rust and helps maintain the plug's aesthetic luster. The NSP hitch plugs are in the shape of the NSP shield and made from a fabricated aluminum that fits up to 2-inch receivers. Show off your NSP pride on your ride

all season long with this one-of-a-kind item! Note: This product does not come with a trailer hitch locking pin.

F #18411 | 2-inch plug | \$36

G #19578 | 1.25-inch plug | \$36

NSP ZIPPER PULL

Customize your favorite bag, jacket, or sweater with this attractive zipper pull featuring either the NSP cross logo or shield logo on raised plastic. Approximately 1 inch in diameter.

H #18334 | NSP shield logo | \$2

NSP STICKER SHEET

NSP created a decal sheet with the NSP shield and NSP retro cross logos. The sheet is 8.5 inches by 11 inches, with each logo coming in a 4-inch by 4-inch size and 2-inch by 2-inch size. The kiss cut decals are UV-laminated for outdoor durability and scuff resistance. They can be used indoors and outdoors and have a lifespan of roughly 12-18 months, depending on the conditions. Buy in bulk and save!

IMAGE ONLINE #19370 | \$4 each

NSP STICKERS

Both are 2-inch by 2-inch UV-laminated vinyl stickers that can withstand the elements. Adhesive on back of sticker. Buy in bulk and save!

Renewable.

ART NO 30570 AND 34070.

Do you buy new shoes when your socks are worn out? Of course you don't. That's why most of our gloves come with removable liners. When the liner is worn out, replace it. And when it's dirty, wash it. So even if we love making gloves, we prefer to sell liners. Simple as that.
